Application/Control Number: 10/023,265 Page 2

Art Unit: 1713

#### **DETAILED ACTION**

1. Applicant's election without traverse of Group I, claims 1-25 in the response filed 11/24/03 is acknowledged. This election failed to fully address the requirement for election of species because applicants' election of a generic claim did not specify a specific catalyst structure. In a telephone conversation with Mr. Osborne McKinney on 4/26/2004, the election was completed by electing the structure shown as the reaction product at the bottom of page 22.

2. Following a search of the elected species, no prior art has been located.

Therefore, the remaining species are joined for examination.

### Specification

3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

## Claim Objections

- 4. (a) Claim 4 is objected to because it has no period at its end.
  - (b) Claim 8 is objected to because in line 8, "alkanetriyl" is misspelled.

Application/Control Number: 10/023,265

Art Unit: 1713

(c) Claim 16 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. This claim fails to fall within the scope of the parent claim (and therefore fails to further limit same) because it does not contain substituent R<sub>3</sub>. R<sub>3</sub> is not an optional substituent, as distinct from those substituents stated to have subscripted values which may optionally be zero.

### Claim Rejections - 35 USC § 112

- 5. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 6. Claim 11, 16 and 20-24 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
  - (a) In claim 11, the phrase "R<sup>2</sup> is a to C<sub>20</sub> alkylene" is not understood.
- (b) In claim 16, it cannot be determined whether the phrase "such as" is meant to indicate that the stated species are limiting or merely exemplary.
- (c) Each of claims 20-22, recites the limitation "the oxygen containing ligand".

  There is insufficient antecedent basis for this limitation in the claim.
- (d) Each of claims 23-24, recites the limitation "the oxygen based functional group". There is insufficient antecedent basis for this limitation in the claim

Application/Control Number: 10/023,265 Page 4

Art Unit: 1713

### Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

8. Claims 1-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Wang et al. (US 6,562,751).

The reference discloses a method of olefin polymerization comprising a cocatalyst and a dianionic tridentate transition metal complex (col. 1-3). Complexes with the ligand structure shown at col. 1 anticipates the structure required in the claims when Q=nitrogen (col. 2, line 23). Additional specific ligand structures within the claimed scope are shown at col. 9, first two structures.

### Allowable Subject Matter

- 9. Claims 14, 15, 17-19 and 25 are allowed.
- 10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-

Application/Control Number: 10/023,265 Page 5
